BeMicron

# OPL BROCHURE

## ON-PREMISES LAUNDRY UNITS

On-Premises Laundry (OPL) systems are set to revolutionize cleanroom laundry services by offering unprecedented control, efficiency and compliance with stringent hygiene standards. By combining BeMicron's 30 years of knowledge about cleanroom laundry and in-house developed software, OPL systems ensure that cleanroom garments are processed with precise, customizable protocols tailored to specific contamination control requirements.

## REINVENTING CLEANROOM LAUNDRY

## OPL BENEFITS

### TRANSPARANCY

Enhanced traceability with included software tools

Complete visibility into the entire laundry process

### SUSTAINABLE

Cutting down on logistical costs

Reducing environmental impact

### FLEXIBLE

Enhanced overall operational efficiency

Highest availability of clean garments

### PROFITABLE

Cutting down on off-site laundry costs

No more overstocking or understocking

Technical area (NC)

Cleanroom area (ISO5)

## SPECIFICATIONS

Cleanroom: 19,50m<sup>2</sup>

PAL / MAL: 4m<sup>2</sup> - 8m<sup>2</sup> (ISO6)

CleanConnect™ Monitoring System

Patented energy saving VIX concept

Easily scalable & upgradable

99,99% cleanroom uptime

## OPL FEATURES

Cleanroom area with washing machine, dryer and gowning folding table

Connection to packing area via roll-up gate

**Optional:** GMPCConnect™ for GMP validated software requirements

**Optional:** HVAC Maintenance contracting
