

BeMicron®

BeMicron

OPL BROCHURE

ON-PREMISES LAUNDRY UNITS

On-Premises Laundry (OPL) systems are set to revolutionize cleanroom laundry services by offering unprecedented control, efficiency and compliance with stringent hygiene standards. By combining BeMicron's 30 years of knowledge about cleanroom laundry and in-house developed software, OPL systems ensure that cleanroom garments are processed with precise, customizable protocols tailored to specific contamination control requirements.

REINVENTING CLEANROOM LAUNDRY

OPL BENEFITS

TRANSPARANCY

Enhanced traceability with included software tools

Complete visibility into the entire laundry process

SUSTAINABLE

Cutting down on logistical costs

Reducing environmental impact

FLEXIBLE

Enhanced overall operational efficiency

Highest availability of clean garments

PROFITABLE

Cutting down on off-site laundry costs

No more overstocking or understocking

Technical area (NC)

Cleanroom area (ISO5)

SPECIFICATIONS

Cleanroom: 19,50m²

PAL / MAL: 4m² - 8m² (ISO6)

CleanConnect™ Monitoring System

Patented energy saving VIX concept

Easily scalable & upgradable

99,99% cleanroom uptime

OPL FEATURES

Cleanroom area with washing machine, dryer and gowning folding table

Connection to packing area via roll-up gate

Optional: GMPCConnect™ for GMP validated software requirements

Optional: HVAC Maintenance contracting
